

VEASYT Live! THE BEST INTERPRETERS IN A CLICK

VEASYT Live! is a professional video remote interpreting (VRI) service via the web from computer and via mobile app for tablet and smartphone, in vocal languages and sign languages. Thanks to VEASYT Live!, anyone can have a professional interpreter available anytime, in any place and any language (website: www.interpreter.com / video: www.bit.ly/VEASYT_video_ENG).

VEASYT

HOW IT WORKS

VEASYT Live! allows customers to **choose** the interpreter that best suits their needs, **on the basis of language, field of specialisation and the feedback received** from other customers. The service adapts to a wide range of needs: business negotiations, international trade fairs, conferences and seminars, healthcare, municipal offices, chambers of commerce, tourist offices, hotel and touristic reception, and many others.

VEASYT Live! can be used for 'dialogue' interpreting and soon for 'conference' interpreting:

- **on appointment:** with the opportunity to consult a wide database of interpreters and book one at least 24h in advance. Each interpreting slot adds up to 30, 60, 90 or 120 min;
- **instant call:** with no need to reserve the interpreter. Professionals in the required language are available within 3 min, calculating the service cost per minute.
- **remote interpreting service for conference and webinar:** soon available.

SERVICE FEATURES

VEASYT Live! can be used via web from computer connected online, with webcam and microphone, or via mobile app through mobile devices iOS and Android.

The main features of VEASYT Live! are:

- **mobility:** the service is accessible via web from computer, tablet and smartphone;
- **flexibility:** the system permits to enjoy VRI with best interpreters both by appointment and through instant call, according to the specific customer needs;
- **professionalism:** only the best interpreters with high qualification and previous experience. Valuable partnerships with important universities, ensure the best service quality available on the market;
- **cost-effectiveness:** on demand, saving the costs of travel of the professionals;
- **API integration:** integration into other platforms via dedicated API.

WHO WE ARE

VEASYT srl is a spin-off of Ca' Foscari University of Venice that **develops accessible digital solutions for the removal of communication barriers** (www.veasyt.com).

VEASYT is partner on international research projects involved in advanced studies about remote interpreting, such as: "SHIFT in orality", financed by the European program Erasmus+ in collaboration with Università di Bologna – Forlì, University of Surrey, Universidad de Granada, Universidad Pablo de Olavide, Dualia (www.shiftinorality.eu).

Our main customers:

- EXPO Milano 2015 spa;
- Hospitals and social health public and private bodies in Italy;
- CNAO, National Center of Oncological Hadrontherapy for treatment of tumours, Pavia;
- Rare Diseases Italian Federation UNIAMO - Fondazione Vodafone Italia;
- Cooperativa Segni di Integrazione Lazio – City of Rome;
- Regional Institute of Venetian Villas, Venetian National Museums.

Among the partners we have the pleasure to be supported by and to work with: UniCredit s.p.a., Intesa Sanpaolo S.p.a., Cisco Systems Italy, Association of Italian Chambers of Commerce Abroad (AssoCamerEsterO), Confindustria Venezia, Italian Institute for Foreign Trade (ICE).

Thanks to VEASYT Live! the company has gained many business plan competition **awards**:

- *European Youth Award*, 11/2016, winner 'Connecting Cultures" section;
- *InnovAzione* - Italian Institute for Foreign Trade (ICE) and Association of Italian Chambers of Commerce Abroad (Assocamerestero), 05/2016;
- *Zero Project 10/15*: selected at Vienna UN head office as "Innovative Practices on education and ICT";
- *EIT ICT Labs Idea Challenge*, 09/15: finalist;
- *UniCredit Start Lab*, 08/2015: winner of the Digital section, 420 companies in the running;
- *Arsenà.IT Consortium at Forum PA*, 05/2015: finalist at national contest "E-Health";
- *Startup Friuli Venezia Giulia ICT*, 12/2014, winner of the national competition;
- *European ICT Challenge – Startup Initiative Intesa San Paolo*, 10/2014: selected in the ICT section and for the participation at bootcamp;

The company is supported by the acceleration program **Innovation Factory at AREA Science Park**, Science and Technology Park in Trieste.
