

Wiringless Implantable Stretchable Electronics

Luca Ravagnan, Ph.D.Chief Executive Officer

First to produce Neuro-leads:

- highly conformable,
- completely stretchable,
- minimally invasive.

Fast market entry with Cortical Grids.

Market Breakthrough with Foldable SCS paddles.

We will revolutionize leads manufacturing

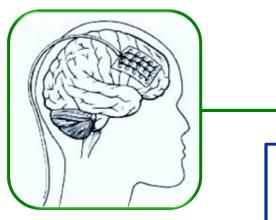

WISE. STRETCHING INNOVATION.

- Monitoring during surgery
- **Identification of** epileptogenic zones

Neuromonitoring applications:

Neuromonitoring Electrodes (iEEG)

Neurostimulation Leads (SCS, DBS)

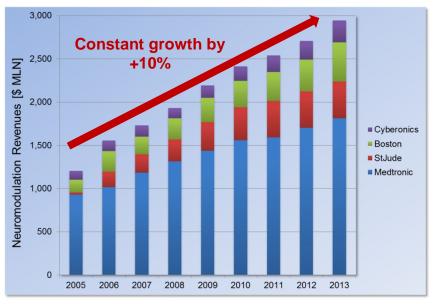

Neuromodulation therapies:

- **Chronic pain (SCS)**
- Parkinson's disease
- Dystonia
- **Epilepsy**
- Depression
- and many others ...

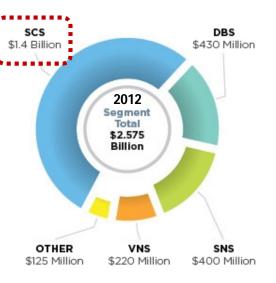

The Neuromodulation Market

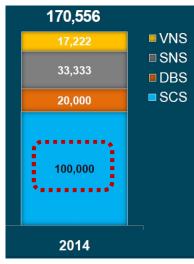

- Neuromodulation Rev. (2013): \$2.8B
- 15% of Revenues come from Leads

Revenue data from Corporate Annual Reports (2005-2013)

- SCS makes over 50% of the market
- Over **100,000 SCS implants** in 2014

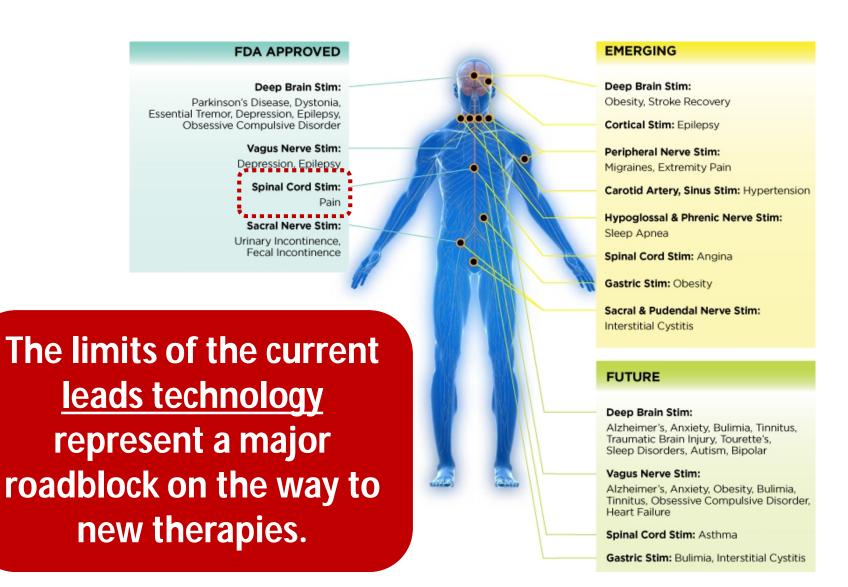

QIG, *The Neurostimulation Market.* April 2011

Greatbatch Investor Meeting, March 2011

Emerging Neuromodulation Therapies

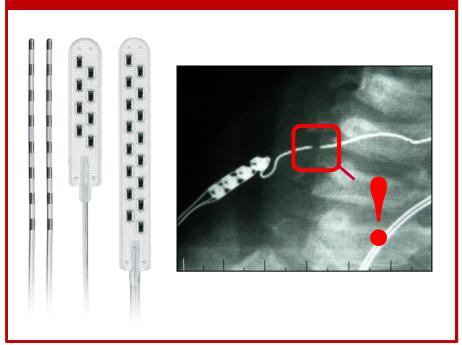

Current Market Problems

WISE. STRETCHING INNOVATION.

Neuromonitoring Electrodes

Neuromodulation Leads

- □ Bulky
- **□** Poorly conformable
- □ Poorly stretchable
- □ Low resolution
- ☐ Hand assembled

- **BREAKAGE**
- **⊗ LIMITED COMPLEXITY**
- **B** HIGH PROD. COSTS

The WISE Solution: Next-generation leads

WISE. STRETCHING INNOVATION.

Neuromonitoring Electrodes

Neuromodulation Leads

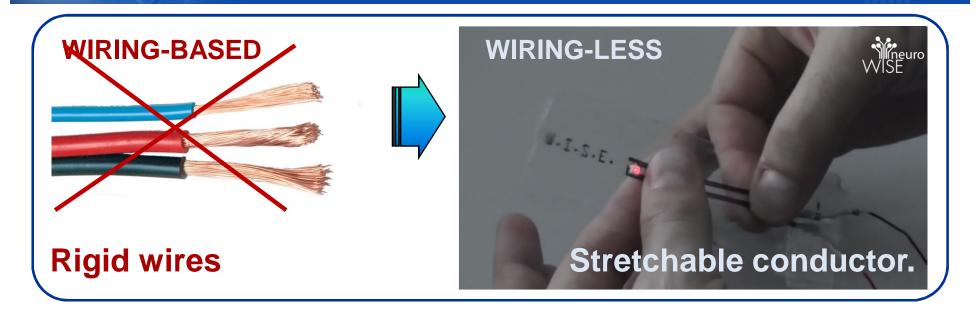

- □ Arbitrarily thin
- ☐ Highly conformable
- ☐ Highly stretchable
- ☐ High resolution
- □ Automation

- **UNITED LOW INVASIVITY**
- **ONLY** NO MIGRATION
- **OND BREAKAGE**
- **UNLIMITED COMPLEXITY**
- **UNIT OF THE PROD. COSTS**

From a rigid past ... to a stretchable future

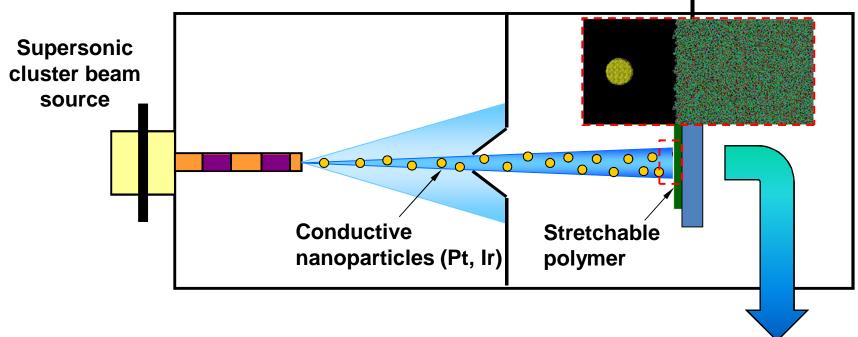

- □ Stretchable conductive materials.
- ☐ Proprietary technology (PCT/EP2011/054903).

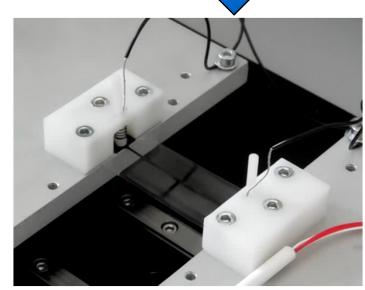

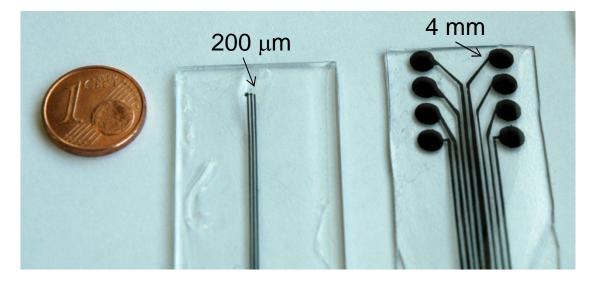

- Unrivaled stretchability
- Arbitrarily soft & thin substrate
- **Biocompatible**
- © Easy manufacturing

No Engineering Limitations

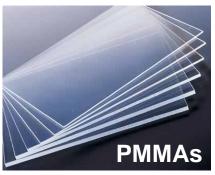

Any shape

© **Any size** (from μm to cm)

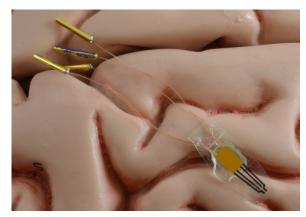

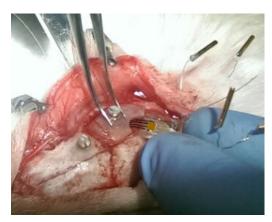

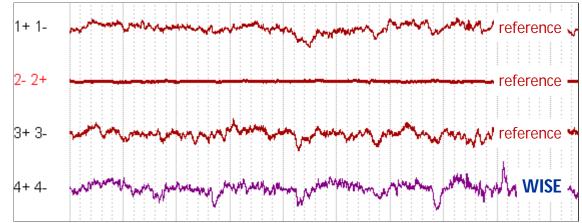

Stable and Effective in-vivo

WISE. STRETCHING INNOVATION.

Stable & very good signal recording in vivo

The first "Foldable SCS Paddle lead"

An SCS lead with all the advantages of a Paddle lead

implanted by minimally invasive surgery as a Percutaneous lead

IVIS Tead of that the table 1808. Practolet threetous

Two types of Leads are used for SCS:

- Better stim. (directional)
- Invasive/Costly insertion
- © Precise stim. spot (grid)
- **⊗** Complex removal

- Worse stim. (non directional)
- © Easy/Cheap insertion
- **Example 2** Less Precise stim. spot
- © Easier removal

WISE's Board of Directors

Luca Ravagnan, Ph.D Board Member +12ys in nanotechnology. Business Development.

Giulia Salzano
Board Member
+10ys in Grants management,
Admin. & Tech transfer (Master).

Mauro Brunelli
Board Member
Venture Partner at Principia Sgr.
25ys experience for M&A and ECM.

Jens Ellrich
Board Member
Professor, Medical Faculty, University of Erlangen-Nuremberg.
Former Chief Medical Officer at Sapiens.

Mario Zanone Poma
Board Member
Former Manager in Hoechst, Telepiù,
Mediocredito. President of Agite!

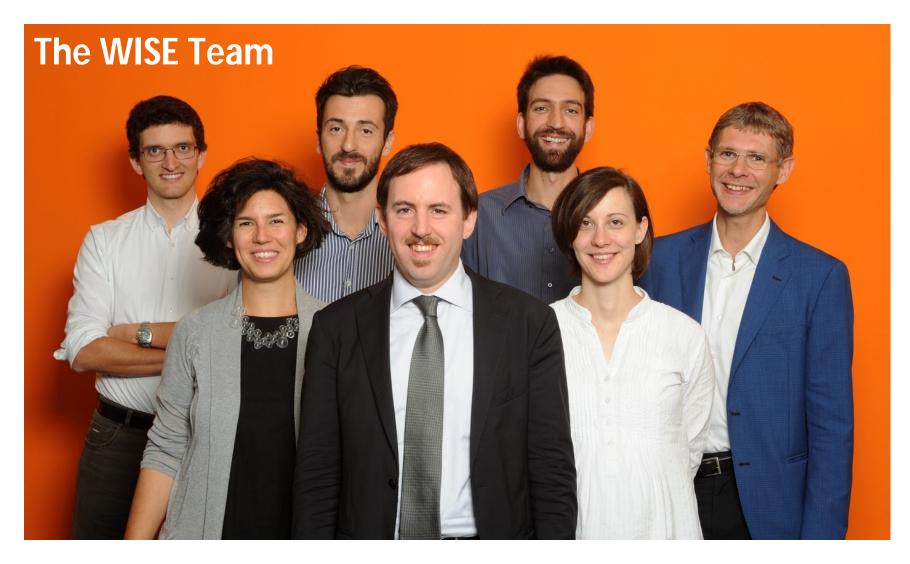

Laura Iris Ferro, MBA
Board Member
Former Founder and CEO of Gentium (first Italian company ever listed at Nasdaq),
Board Member at Sorin

Davide Turco
Board Member
Head of Atlante Ventures Fund at Intesa
Sanpaolo.
Venture Capital and Private Equity expert.

The WISE Team

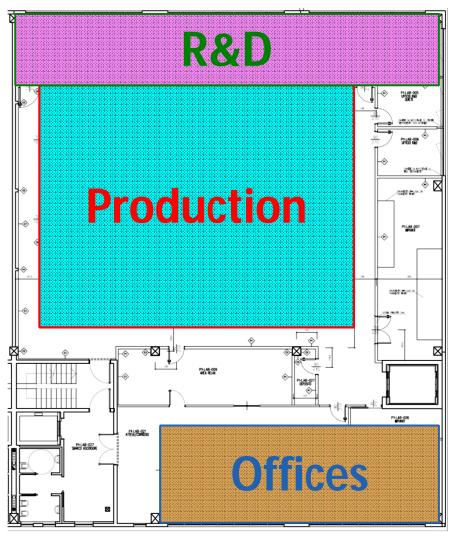

www.wiseneuro.com

WISE Factory

- 1000 m² facility
- Offices, labs and production
- 120 m² of ISO 7 cleanrooms
- ISO 13485 compliant
- Operative by July 2016

Locations:

Milan (Italy) **Fondazione Filarete**

R&D, Product development & Administration

Berlin (Germany) Campus Berlin-Buch Trials & Regulatory

Current Investors:

Amigdala

Winner of: 13 Innovation Prizes, 2 Business Plan Competitions, 7 Best Presentations Awards.
